

St. Mary & Milk River Water Management Initiative
Joint Status Report #2
January 19, 2009

Status

Members of the Montana and Alberta Joint Initiative Team have completed the second of three 'information' meetings. They received presentations on the existing international agreements (1909 Boundary Waters Treaty, 1921 Order of the International Joint Commission, 2001 Letter of Intent), on the irrigation infrastructure and water application systems used in each jurisdiction, on the water management operations, and the regulatory/planning process for developing in-stream and ecosystem flows in each jurisdiction.

Background

The St. Mary & Milk River Water Management Initiative is being conducted under a Terms of Reference approved by Premier Stelmach and Governor Schweitzer in January 2009. Under the Terms of Reference, Montana and Alberta agree that the shared water of the St. Mary and Milk Rivers is an important resource to both jurisdictions and that there are opportunities for the two jurisdictions to work together to improve their timing and access to this shared water. Alberta and Montana have shared the water from the two rivers for 100 years, under Article VI of the Boundary Waters Treaty (1909).

The Terms of Reference establishes a twelve member Joint Initiative Team of local water users and government officials from both sides of the border. The Team has been asked to explore and evaluate options for improving both Montana's and Alberta's access to the shared waters of the St. Mary and Milk Rivers, and make joint recommendations on preferred options to both governments for their consideration and approval. A report containing the joint recommendations is due to both governments in the fall of 2010.

The Joint Initiative Team is co-chaired by Robert Harrison from Alberta Environment, and John Tubbs from the Montana Department of Natural Resources and Conservation. Other team members include representatives from the Milk River Watershed Council Canada, Oldman Watershed Council, Alberta Agriculture & Rural Development, the office of Montana's Lt. Governor, Blackfeet Tribe, Ft. Belknap Indian Community, and the Milk River watershed in Montana.
